

### 30% RESIDENTIAL ENERGY EFFICIENT PROPERTY FEDERAL TAX CREDIT

Section 25D of the Internal Revenue Code provides a 30% tax credit to individuals for "qualified solar electric property expenditures" made by the taxpayer during taxable years beginning after December 31, 2008. Qualified solar electric property expenditures are expenditures for property which uses solar energy to generate electricity for use in the taxpayer's residence. Taxpayer's are permitted to rely on a manufacturer's certification in determining whether property is eligible for the credit. Taxpayer's are not required to attach the certification statement to its tax return on which the credit is claimed, but should keep a copy for its records.

Below is the Certification by Gates That Open, LLC (formerly GTO, Inc.) that the products listed are eligible for the Residential Energy Efficient Property Tax Credit. We cannot provide tax advice and you should consult your tax consultant about any changes in the law, your individual circumstances, and how to claim the credit. (Note that a taxpayer claiming the credit is responsible for determining whether the expenditure appropriately relates to its use in the taxpayer's residence and cannot rely on the manufacturer's certification for that purpose.)

---

#### MANUFACTURER'S CERTIFICATION FOR RESIDENTIAL ENERGY EFFICIENT PROPERTY UNDER INTERNAL REVENUE CODE SECTION 25D

Gates That Open, LLC, at the address below, certifies that the make and model numbered products identified below qualify as Solar Electric Property for purposes of claiming the tax credit for Residential Energy Efficient Property under Section 25D of the Internal Revenue Code.

**Name and Address of Manufacturer:**

Gates That Open, LLC  
3121 Hartsfield Road  
Tallahassee, FL 32312

**Identification of Property:**

Solar Electric Property

**Make and Model Number(s) of Qualified Property**

GTO Mighty Mule FM200 SGL Solar Gate Operator System – Kit for Single Gates
